#### Program Results and Effect:

The ultimate goal of the program is to provide an affordable recreational opportunity to visitors and tourists to southeastern Idaho. The State hot pools are considered to be the finest in the west and the Olympic Swimming complex is one of a kind facility in the intermountain west. The Foundation's challenge is to maintain the facilities and make improvements to ensure that the facilities will be here and enjoyed for many years to come. The Strategic Plan is intended to assist the staff and Board of Directors when faced with alternatives in the program brought on by changes in receipts which fund our programs.
